

DV 410

Automatic Reinforcement Profile Screwing Machine with Triple Drilling

- Screwing and triple handle drilling operations on PVC profiles are combined in one machine controlled by computer
- Loading of 10 profiles (max 5.0m length)
- Able to screw and triple drill operations due to servo system
- Automatic profile off-loading station
- Adjustable screwing positions according to different profile cross sections
- Automatic screw feed
- Automatic screwing depth stop system independent from profile height
- Pneumatic profile fixing system during the process

Optional

Frame installation hole unit

Technical Features

- Power supply: 400V, 3ph, 50-60Hz.
- Power output: 5kW 13A
- Air pressure: 6-8 bar
- Air consumption 550 l/min
- Max profile height: 135mm
- Min profile height: 35mm
- Max profile width: 180mm
- Max profile length: 3000mm
- Machine height: 2,410mm
- Machine length: 9,340mm
- Machine width: 2,400mm
- Machine weight: 1,500kg
